story, a large number of the most experi-

enced and hardy settlers had left the settlement to go to snother portion of the country to aid in the battles for liberty. Little did they know how much their services were needed at home !

All the settlers in the village at the time mbled in the church on the Sabbath. Not one, old or young, but was pre-sent. It was the first time for a long while that the privilege was theirs to hear the word of God spoken to them, and they had assembled to thank kind Providence, for preserving their lives amid surrounding dangers. Jenny Birch and lier parents were there also the parents of Edwin Pierson; but Ed-

the party that had left the settlement. for safety from attack, the windows were placed high from the ground and furnished with heavy oak shutters which were controlled from the laterior of the building. The roof was covered with a species of slate. The building bad been made as a place of refuge in times of danger, and hence the peculiarity.

win was not there! He had accompan

The services had commenced, and the congregation had just finished singing the forning bymn, when the shrill war whoop started them all to their feet, and at the same noment the large oak door was thrown pen, and an Indian with uplifted tomahawk sprang into the church and close behind him tollowed scores of painted warriors with the deafening war whoop still on their lips.

Mr. Birch was seated behind the door, and the Indian sprang past him, with the speed of thought he leaped upon him and pinioned his arms behind him. The next moment, ere the remainder of the savages could follow, the atrong arms of one of the settlers had force? the door shut, and notwithstanding the forious onset made by the savages, he with the aid of one or two others' succeeded in effectually barring the door, and all

After a short but fierce struggle, Mr. Birch succeeded in securing the savage who had entered, and now the stubborn captive lay panting on the floor. All was confusion mong the women and children; but in a moments, by a little effort on the part of attack on the door with their hatchets. the pastor quiet was restored.

The Indian captive was placed in a safe place, and measures were taken by the settlers to render their defense more secure. They were well armed, all having taken their weapons to the church with them, and there was a store of ammunition and provisi-ons in a vault beneath the church.

The savages, after having been defeated in their efforts to enter the church had drawn off to a short distance. Ondega was much chagrined at the helure, and was very active side the door. The door was unbarred by in his endeavors to plan something that would those who had reached the inside, and all

Directly after the first assault, Mr. Birch and his son George, a fine lad of eighteen years, had descended into the vault of the church, when Mr. Birch removed a door, dis-

closing a dark passage.
"George," said Mr. Birch, " you know where this leads to—the old oak by the creek It is but a few rods, and when you get there his vivid and glowing repre- wait till you hear the crack of a rifle, and then raise the sod under the large root, and when you get out, run as fast as you can But he still and with as little noise as possible till you get out of reach of the Indians, and then you know what to do. Now, go, George, and may God speed you, and grant that you may be the instrument of saving all our lives

> "Yes, father, I will !" said the noble boy and pressing his father's hand, he entered the

> Mr. Birch ascended to the church and step ping to the middle of the room, said : Listen!--George is in the passage below and we must do something to divert the attention of the Indians from the oak, so that

> he may get out and go to Edwin." "We can fire a volley into them," said

> "Yes, that would be a very good plan," said Mr. Birch. "Let me get and look through the window."

"You had better take a loan-hole W Birch, or some of the red-skins will shoot you," said Mr. Pierson, laying his hand on Mr. Rireh's shoulder, he being about to mount a bench to look through a window. "Thank you Mr. Pierson, I forgot myself!"

and Mr. Birch stood for a moment looking through one of the loopholes. "There is an Indian standing right by the oak, but all the was a similarity of continent between Edwin cost are on the right of it, and if we can put that one out of the way, George can get through," said Mr. Birch, turning around to the settlers who were awaiting the result of

woodsman. "When you fire a volley to call the attention of the other Indians, I will

This was agreed to, and at the mome of the simultaneous reports, the sawage by the oak was seen to fall without uttering the blow that, if successful, would send sorrow to so many hearts.

Nearly wask before the opening of our
without being noticed by the savages.

The night came on, and the Indians nor

set fire to the deserted dwellings of the settlers, who were obliged to witness the destruction of their property without the power to prevent it; but the sharp crack of a rifle ever and anon, would tell that they were on the watch, and whenever a dusky form was seen sufficiently exposed to present a fair mark, it was sure to be instantly used as such, and seldom did the marksman fail The Indians, too, had guns furnished them by the British agents, but they could not be brought into use, as the settlers were secure behind the heavy walls of the church.

And where was Jenny Birch all this time and what was she doing? At the first mo ment of the attack, she had, with wonderful presence of mind, assisted in soothing the The atructure where the services where fears of the females, and from that time till dark had not taken a moment's rest. Most fears of the females, and from that time till of the time she was engaged in moulding bullets, preparing refreshments for the hungry ones and doing sundry other little matters for the convenience of all.

After the fears of the women had some what subsided, they assisted Jenny in her kind office, and when night came on all in isted that she should take some rest. She yielded to their desires, but sleep visited her not that night-nor were there many in that ittle castle it did visit.

Morning came and not an Indian was to seen-all had dispersed! The settlers were somewhat surprised at this, although the most experienced backwoodsmen pronounced that they were preparing for a dese prepared for them.

Sentinels were stationed, and meals were served to the weary men. Preparations were made for a desperate defense. Each man sharpened well his dirk knife, and large quantity of bullets were moulded.

All was quiet till eleven o'clock, and the settlers began to think the Indians had left for certain, when the shrill war whoop ringing out on the pure air gave warning that terrible struggle was at hand. Instantly every man was at his post. In a moment the Indians rushed on the church, and notwith standing the murderous discharge of firearms that greeted them, carrying death to many of their number, commenced a furious

The settlers continued to pour a gall fire on the savages: but after some t break was made through the heavy oak door, sufficiently to admit the body of a man when a savage leaped through. He was ecarcely inside the church when his head was cleft by an axe in the hand of Mr.

The Indians now poured through the ap perture, and, although they met with a desperate resistance, were fast accumulating inopposed by men fighting for their loved ones.

The settlers no longer used rifles but re sorted to their knives, and the manner in which they were used showed that it was no new weapon in their hands.

But it was evident that the unequal con test could not last much longer. Although none of the settlers had as yet been killed, scarcely one but was severely wounded. The savages outnumbered them two to one. Seeing the desperate state of things, Jenny Birch seized a tomahawk which had been thrown down and rushed into the thickest of the fight and for a moment that tomahawk was spended in the air and when it descended it carried a message of death to a bloody savage whose tomahawk was pending over her father's head.

This was seen by the savages, and for a mo ment hostilities was suspended, and squaw! white squaw ! burst simultaneously from the lips of each one.

At this moment a shout proceeded from the creek, and Edwin Pierson sprang to the rescue with his brave followers.-Ondega caught sight of Jenny as she stood with bloody tomahawk still in her hand, and with a fiendish whoop and uplifted tomahawk, he sprang towards her to strike the deadly blow. A rifle shot sped through the air, from the uperring rifle of Edwin Pierson, and Ondega was stretched lifeless on the floor, His followers, now without a leader, were

easily conquered. We will attempt not to describe the happy scene which followed. Husbands clasped wives and children to their breast, the good pastor although severely wounded in the benflict, knelt down and offered up thanks to God for their deliverance. Jenny, who had swooned from over excitement, was in the arms of Edwin Pierson, who at length acceeded in restoring her to consciousness

The wounded were kindly cared for, and in time all recovered. Ondega received a decent burial, as did the rest of his followers who had been killed.

There in the centre of that little village in the year 1798 stood an old, time-worn church. It still stood as a monument to the bravery of the early settler.

That noble looking man, with the beanti ful woman leaning on his arm, and pretty trembled in view of the untried experiment. children hanging fondly around, is Edwin now for the first time to be attempted. lore han, cassandly around, is Edwin now for the first time to be attempted. lore han, cassandly provided in the lore of the first time to be attempted. Select Miscellanu.

THE ELECTION OF ADAMS.

The following is a most graphic sketch nd picture of this memorable event in our history. It is done to the very life, and shows the admirable workings of our well balanced constitutional and republican sys tems. In Europe, such a contest and such a result, would have been attended with tumult. bloodshed perhaps revolution. Bu with us, the majesty of the constitution and laws of a free country, asserted itself ove the will of the people themselves, and peace fully placed the glittering prize of the Pre sidency in the hands of the minority candi date over the victorious General and popu lar favorite. The moral sublimity of the spectacle can scarcely be surpassed---it cer tainly has no parallel in ancient or moder perate struggle, and that the settlers must history. What American so dead to patriotism, and a sense of true glory, as not to be proud of his country ?

The struggle for the vacant Presidentia chair shook the Union : it kindled strife and gave birth to parties which are not extinct among us; with these it is not my province nor my purpose to meddle, but it was my lot to see the issue of the contest, when i came to its head and was decided, blow by blow, on the high places of the field. The hall of the House of Representatives exhib ed, on that eventful day, such a spectacle a never had been witnessed in this country such as the world never saw. There being three candidates for the Presidency, and neither of them having received the con stitutional majority giving him a title to the office, that crisis had arrived which, in al other countries, has been decided by the sword; but which, having been contemplat ed as possible by that band of men, (in spired they surely were with a wisdom not theirs,) who framed our happy Govern ment, had been provided for hy the peaceful expedient of taking the choice out of the immediate hands of the people, and committing it to their own representatives, acting, not as one amalgamated body, but in their separate capacity, as the delegations of the respective States; each united delega-

As the day appointed for the election apreached, the excitement of the public mind became intense. Washington was crowded. Nightly caucuses, and the most anxious calculations, occupied the leading men of each of the three parties. So evenly were they balanced, that after the most exact scrutiny had been gone through with after the probable vote of each individual had een set down with as much care as if the whole result depended on his individual suffrage, it was concluded that the result would very possibly turn on a single vote and when the morning of the decision had actually come, it was generally understood, that that vote was in the hands of a wealthy, upright, and amiable, but not very firm or igorous, member of the New York delegation. He had given his promise to vote for Mr. Adams, but the eager, agitating, anxious question was whether he would remain firm to that pledge or not.

The Hall was prepared for the process of he election by placing seats for the respective State delegations, each having a separate table, in the semi-circular open space in front of the Clerk's table. Before the hour for taking their seats, they were to be seen walking about in little bands, or seated in groups, earnestly conversing in a low tone, every mind being occupied in the result of the election. Each party was sanguine of success. Bets were staked on a large amount The most confident predictions were attered, and by some of the excited and unscrupulous partisans without, most ferocious threats were uttered. A second Missouri contest was expected. None counted on less than forty ballotings; some said the election would occupy weeks, perhaps months, while others said that no choice would be made, but that Congress would break up in a row.

To a patriotic mind, it seemed as if all the powers who sought the ruin of free Government had gathered together at Washington, and were hurling through the troubled air. Many persons carried concealed weapons, as expecting some violent outbreak. The bar-rooms of hotels and eating houses were crowded with guests, whose aspect boded no good to the country; or the peaceful progress of the government. Many a heart that loved American regulated freedom, now for the first time to be attempted.

woman is Jenny Pierson-not Birch. They came. Every avenue leading to the Capitol you must retire-clear the galleries." And was filled with people, all whose faces looklistening children the story of the struggle ed in one direction, and were filled with one ommon expression of grave and interested curiosity. Into the galleries which surround and overlook the Hall of Representatives, not an additional human being could by out of sight and hearing of what was passing within, were crammed with watching nultitudes, hoping against hope, to gain, by some good chance, or by dint of patience, and of physical strength, a glimpse at least

of the exciting scene.

It had been proposed, in debate, on the day previous, that, during the election, the galleries of the hall should be closed, as they could at heat accompodate but a handful of thosewho were anxious to witness the scene; but Mr. McDuffie, (then a prominent member of the House,) warmly denied the right of Congress to exclude people from witnessing, if they so pleased, the acts, of their own repesentatives, in a matter, especially, so vital ly affecting them all. And when it was suggested that the admission of so great and excited a crowd would inevitably be productive of disorder, he sprang up, and in tones which reached through the hall and galleries, pledged himself for " the orderly deportment of the people while looking on such a scene." His appeal was too popular to be successfully resisted, and the doors were thrown open

It was an imposing spectacle. The circuar lobby outside the bar, (and into which none are admitted but privileged persons whose right is specified by law,) as well as the logia, or open area behind the columns of the rear of the Speaker's seat were filled with members of the Senate, Ex-Governors of States, military and naval officers, (those only, however, who had received votes of hanks by Congress for meritorious service,) foreign ministers and their attaches, Judges of the Supreme Court-in a word, with all whose envied distinction it was to pass the vigilant, scrutiny of the doorkeepers, now loubly vigilant, and all-upon the qui vive. restless movement of the members within the bar, and a general murmur like the alarmed hum of bees when their hives are disturb ed, gave token of the state of feverish anxiety which prevailed throughout the body. Could any revealing spirit have opened to uman view the hopes, the fears, the boiling passions, which tumultuated within those fierce bosoms, how would the painful interests of the scene have been yet further heightened in intensity?

At length the Speaker's hammer fell. dead silence instantly prevailed, and the respective delegations assembled and took their seats around the table prepared for

It was my privilege, from an elevated posiview of all the groups; and I have preserved a rude and hasty sketch which I caught of their positions while the first ballot was procoeding. Each delegation appointed one of their number to act as Chairman, collect their votes, and report the result. The delegations voted by pluralities. Whoever, in each, received the most votes; was reported as the choice of that delegation. There were twenty-four of the groups; and when the votes had been gathered in each, they

were called upon to report, which they did in succession, viva voce, commencing with Maine. The silence was like that of a sepulchre. Men's breath was suspended as State after State uttered its voice; and oh. can I ever forget the moment when the Speaker, standing up in his place, declared in a clear, sonorous voice, that seemed to pierce through bone and marrow, that " Jones QUINCY ADAMS, having received a majority of the votes cast, was duly elected President of the United States for four years from the 4th of March next ensuing."

Then arose such a shout from the gal eries as seemed to lift the very dome of the hall. Mr. McDuffie, (whose candidate had been defeated, whose eager hopes were blasted, and whose personal pledge for the good order of the assembly was remembered by all,) sprang in much excitement from the a sign of a partially diseased skin, and a ground, and in a voice that rang above all the tumultuous plaudits of the spectators, cried, "Mr Speaker! I move that the gallery it was driven by the shock of the cold wabe cleared!" The question was put and carried. "Yes," said a foreign minister to mother who stood by his side, "but how kind of bath proper for each particular inare you going to do it?" A natural ques- dividual is experiment. Opinionated pertion enough for a European, ignorant of the country and the people. Here were no bath, always maintain the sort adapted for guards; no gens d'armes; not even a constable; how was the order to be executed?

He soon saw, and while he gazed, seemed laries," than an active, slender young man, kind of bath should be used, even without of graceful form, and with a brilliant black experimenting. eye, darted from his place, and mounting. (I did not see how,) the broad stone cornice which runs all round the hall in front of and

at his word, like a flock of quiet, passive sheep, when the gate of their pen is thrown open, out went the entire crowd, without a word of complaint or remonstrance, and in an incredibly short time, not a soul was left behind. The foreign minister lifted up his possibilty be forced, and the staircases, quite hands in amazement, and exclaimed, "What a government! What a people!

BATHING...
As the season for this healthful luxury is ow with us, we have thought the following article on the subject, from the Philadelphia Bulletin, would prove acceptable to many of

Even the best things are occasionally proluctive of injurious consequences, when indulged in to excess or used without discre-Too much bathing debilitates even the most robust, often destroys the appetite, or leads o other hurtful results Hot baths, not teoid ones, are particularly apt to prove delerious. Few persons, indeed, can employ hem at all with advantage. Dr. Tilt, an English physician of eminence, who has written an admirable work on the best neans of preserving health, gives it as his ersonal experience that hot baths, produces emporary plethorn, headache, and a sense f weakness amounting almost to fainting. hese are, he thinks, the general results al-He advises, therefore, that hot baths should be avoided, unless when a physician as explicitly directed their use.

Tepid and cold baths, to be employed acording to the constitution and liabits of he particular individual, are the baths to which most should confine themselves. Nerrous persons are especially benefited by the epid bath, which seems to have a direct sedative influence on the nervous system, prooably by absorbing, according to Dr. Tilt, he morbid irritability arising from an undue development of the mind at the expense of he body. Napoleon, after excessive fatigue, ither mental or physical, was accustomed to ake a tepid path, and, if possible, indulge a while in sleep; and he was often heard to declare, that, without such a sedative, it would have been impossible for him to have reserved his general health. After his exausting return from Russia, subsequent to the memorable conflagration of Moscow, he went immediately into the bath before transcting business, and then slept; without wakng, for eighteen hours, and when he rose he was a fresh as ever: The celebrated Diana of Poictiers, one of the most beautiful women France ever gave birth to, and who maintained her charms long beyond the usual term, owed the preservation of her loveliness rincipally to the daily, but judicious use of the bath. Thus we see that ordinary health. the capacity to endure great fatigues alike of mind and body, and the maintenance of nore or less, on the discriminating, but hab-

itual employment of the bath: The tepld bath is, perhaps, the one most generally suitable. The temperature of a tepid bath should fange from 82 deg: to 88 deg. Fahrenheit. While the temperature is kent below blood heat, the body slowly increases in weight, partly owing to the absorption of water, partly to the diminution of insensible perspiration. In a tepid bath, heated from 82 deg. to 86 deg. Fahrenheit, it was ascertained, by Chossat, that the pulse descended from sixty pulsations to thirreight : and it was clearly the soothing effect thus produced, which rendered the tepid bath so delicious to the irritable nerves of oath after long railway journeys, excessive walking or riding, or at periods of nervous critability, superinduced by any causes. Cold baths are favorites with many person specially those of robust frames and high health. But it is never wise to remain long in very cold bath. On coming out, if the stay has not been too protracted, the body feels as if entering into a warmer atmosphere, because of the density of the water, blunted.

Sometimes headache supervenes, This is want of reaction causing the blood to remain concentrated on the internal organs, where

The best, perhaps the only test, of the sons, ignorant of the modus operandi of the themselves is the description suitable for all. We know some individuals who swear, as it were, by cold baths, and others who are just enetrated with speechless wonder. No as obstinate in behalf of tepid ones. A phy coner had the Speaker given the order, sician familiar with the habits and consti The Sergeant-at-Arms will clear the gal- tutions of the patient can generally tell what

A THRILLING INCIDENT. The first settlers in Ma ine found, beside its red faced owners, other and abundant sources of annoyance and danger. The

majestic forests, which then waved where now is heard the hum of business, and where a thousand villages stand, were the homes of innumerable wild and savage animals. Often at night was the farmer's family aroused from sleep by the noise without, which told that bruin was storming the sheep pen, or the pig sty, or was laying violent paws upon some unlucky calf-and often, on a cold winter evening, did they roll a large log against the door, and with beating hearts draw closer around the fire, as the dismal howl of the wolf echoed through the woods. The wolf was the most ferocious. blood-thirsty, but cowardly of all, rarely attacking man, unless driven by severe hunger nd seeking his victim with the utmost pertinacity. The incident which beam about to relate occurred in the early history of Biddleford. A man who then lived on the farm now occupied by Mr. H---, was one autumn engaged in felling trees at som distance from his house. His little son, 8 years old, was in the habit, while his mother was busy with household cares; of running out into the field and woods around the house; and often going where the father was at work. One day, after the frost had robbed the trees of their foliage, the father left his work sooner than usual, and started for home. Just on the edge of the forest ha saw a curious pile of leaves-without stopping to think what made it, he cautiously renoved the leaves, when what was his astonishment to find his own darling boy lying there sound asleep! Twas but the work of a noment to take up the little sleeper, put in his place a small log, carefully replace the leaves, and conceal himself among the near-est bushes to watch the result. After waiting there a short time, be heard a wolf's distant howl, quickly followed by another, and another till the woods seemed alive with the fearful sounds. The howls came nearer, and in a few minutes a large, gaunt, savage looking wolf leaped into the opening, closely fol-lowed by the whole pack. The leader sprang directly upon the pile of leaves, and in an instant scattered them in every direction. Soon as he saw the deception, his look of fierceness and confidence changed to that of the most abject fear. He shrank back, cowed to the ground, and passively awaited his fate; for the rest, enraged at the supposed cheat, fell upon him, tore him n pieces and devoured bird on the spot When they finished their comrade, they wheeled around, plunged into the forest and lisappeared; within five nilnutes from their first appearance, not a wolf was to be seen The excited father pressed his child to his bosom, and thanked the kind Providence which led him there to save his dear boy. The boy, after playing till he was weary, had laid down and fallen asleep, and in that attnation had the wolf found him and covered him with leaves until he could bring his comrades to the feast, but himself furnished the

repast .- Biddleford Journal AN ACT OF GALLANTRY. - Scott, in one of his novels, informs us that Walter Raleigh paved his way to royal favor, by throwing his mantle beneath the feet of Queen Elfzabeth, least they should be soiled in crossing a puddle of water. Passing up Broadway yesterday, says the N. Y. Mirror, a little accident occurred, which recalled to our mind Sir Walter's gallantry. A young and handsome dressed lady was tripping along Napoleon. Dr. Tilt recommends the tepid a dilapitated sidewalk, while an Irishman who was no respecter of persons was shovelling dirt into the street. She was in the act of passing, and a spade full of mother earth was coming directly towards her splendid dress and " sweet bonnet," when a young man interposed, and received the whole discharge in his shirt bosom. The young lady blushed her gratitude, and the young man immediately cut for a back street. He deserves some of Sir Walter and because also the sensibility of the skin is Raleigh's good fortune. Burke was wrong : the age of chivalry is not gone.

The common fluency of speech, in many men and most women, is owing to a scareiy of matter and a scarcity of words; for whoever is master of a language and a mind full of ideas, will be apt in speaking to hestate upon the choice of both; whereas comnon speakers have only one set of ideas; and one set of words to clothe them in ; and these are always ready at the mouth ! so people can come faster out of church when t is almost empty, than when a crowd is at

Good Advice -A lawyer in one of the iewly-settled Western States was so exremely metaphorical upon an occasion when the stealing of a pig was the case in point, that at last he got to "corru rays." The Judge (who appeared equally metaphorical himself) thought proper to pull him up, by saying: "Mr.——, I wish you would take the feathers from the wisgs of your imagination, and put them into the tell of your judgement."

A dog that will fetch a bone will take one

for the apprehension of the wretches who recently placed obstructions on the road, by which
the lives of several persons were lost. We
have often thought that nothing could induc
us to witness the spectacle of a public execution
but we are half inclined to think that we won wretches dangling at a rope's end. We would rejaice to chronicle the fact of their being apprehended, and hope soon to have the pleasure of doing so.

Latest Foreign News. The arrival of the Baltie which is amounced by the telegraphic dispatch from Baltimore dated the 26th, gives a more favorable aspect to the threatened collision between Russia and cultivated it at leisure hours, as a source of Turkey. The mediation of Austria, which was tendered to allow the Czar to recede with honor, it is stated has been accepted, and there is a prospect of an amicable settlement of the diffies. From the advices by the Niagara, it would appear that very extensive preparations ber present who are considered as entirely com-had been made for a conflict, in which each petent judges. In one or two pieces in particugovernment was fully sustained by its own people; and it is not improbable that unless a speedy adjustment be effected, the conflict may exhibited a skill in developing the sentiment

The English and French fleets have been jointly despatched to the Dardanelles, furnished

A call was made in the British Parliament for the correspondence relative to the imprisonment which remailing was not unfrequent the correspondence relative to the imprisonment of by simply passing under it and of negro seamen in South Carolina, and a belief was expressed that the Legislature would repeal the law, if properly selicited.

A letter from a friend residing in Floyd county, Georgia, written and date of the 24th, gives the following account of the prospects of the crops in that section :" We are suffering for " want of min; in some portions of the State more than in others. Since cotton was plant-"ed we have had only one rain that wet the land sufficiently deep to plough. The prospect is rather gloomy; but with the surplu of old corn I think we can with light seasons make a sufficiency of grain and perhaps some to spare. The wheat crop has turned out pretty well. Cotton is small and late."

Reuben Roberts.

The case of Reuben Roberts vs. the Sheriff of Charleston has been discontinued by order of the British Government; and with it is gone a fruitful theme for newspaper scribbling, longwinded leaders and sage speculations as to free to the use of all; he has asked no injunction o restrict the liberty of the press nor sought to have himself copyrighted. Ungrateful then would it be to consign him to oblivion, without an effort to fix in the hearts of posterity a re ollection of the signal service he has rendered the fraternity. Roll on, Reuben; and rest content with the thought that you have lived for a ourpose. We would beg for a lock of your but a like favor granted to all would leave no wool, " on the place where the wool ought grow." We have it not in our heart to renr such unkindness.

Putnam's Monthly.

Putnam has given us an enfertaining number his Monthly for July. The following is its able of contents :

Educational Institutions of New York, (bear ifully illustrated;) Life in Hawaii, (illustrated); Ode to Southern Italy; Dinner-Time; Jack Lantern's Railroad Speculations; Fish-Hawks and Falcons; Miss Rock's Friend, (conluded;) A Few Days in Vienna; Doctors; Letters of Paupidemus; Seetches in a Parisian Cafe; The Hunchback; A Story without a Moral; Poems of Alexander Smith; Gold under Gilt ; the Grave of Keats ; Editorial Notes. Published by G. P. Putnam & Co., New

York .- \$3 per annum. Blackwood's Magazine

Contents of June number : The Paradise in he Pacific ; Lady Lee's Widowhood, part VI; Finlays Bizantine Empire; Six Months with the Malays; A Few Words on France; The Shadow of the Way; Syria; Kilimandjaro; Minor Morals; Free trade and High Prices; India. -Republished by Leonard Scott & Co., New York-\$3 per annum.

Bascomville Female Seminary. The semi-annual examination of this flow ng institution took place on Thursday and Friday, the 9th and 10th of June, inst. Although it was not intended as a public display, yet a considerable number (mostly, however, patrons of the school) were in attendance to witness the progress which the pupils had made under the direction of the present able and accomplished Instructresses, Misses SALLIE HALL and CARRIE POND; and I believe all present bore a willing testimony to the rapid advancement of the pupils in the various brunches

The patrons and friends of this school were entertained on Thursday and Friday last with thorough and practical method of instruction in we remember that none of the previous preparation usual on such occasions was made, the skill and proficiency of the present aminble conductors of that Seminary upon all the classes were manifest, and perhaps in nothing more than in the correct and tasteful manner in which the pupils are taught to read.

The music class, that branch which is an tions of the parents and friends; although from the very high character which Miss Pond sus-

sion, and possessing, as she does so fully, the Such proficiency had the class in music confidence of her patrons, we may expect the made, that the young ladies considered themnext session to open with more flattering pros- selves warranted in offering a concert for the entertainment of the neighborhood, which came off Friday evening, commencing at early candle-

> The Cedar Shoal Brass Band, composed of young men, who are always willing to aid in the entertainment of such occasions, kindly tendered their services. I deem it altogether unnecessary to call particular attention to their excellent performance on that evening, when we remember, that they were trained by W. A. PEDEN, who has long since secured the reputation of an accomplished musician and polshed gentleman.

> Mr. E. HYATT EDWARDS also contributed a large share to the entertainment by his admirable performance on the violin-and permit me to say, Mesers. Editors, without any disposition to flatter, that it has seldom fallen to my lot to hear anything equal, much less superior, to the performance of that talented young gentleman, who certainly possesses a taste and talent for music of a very high order, and who has only

> amusement for himself. I believe the performance of Miss Ponn or the Piano was universally admitted to be by far superior to any thing, that we have heretofore been permitted to hear, and there were a numlar, from their great length and compass reand feeling of the author, and a pathos which called forth one spontaneous and general burst

o applause. Several of the pupils who had only taken essons, the past session, who performed on the Piano, and sung with a grace and precision which took us with surprise, not only bearing testimony to the efficiency of the instruction received, but exhibiting a confidence and a taste

We were all highly gratified, and I fancy will not soon forget the first concert at Bascon ville. The exercises of the school, I understand

lowing items. . The New Orleans Picayune, in a very melting mood, thus describes the heat in which he

winded leaders and sage speculations as to effects and consequences. Verily Reuben has served a good purpose. He came at a time of great editorial dearth—a time when every other topic had been written up and the agony of each publication day was aggravated by the thought that the last dish was served up with no hope for the future. Reuben should receive a vote of editorial thank—thanks as cordial as those elicited by compliments of bride's cake, early potatoes and squashes. His name has been free to the use of all; he has asked no injunction at the carty potatoes and squashes. His name has been at the use of all; he has asked no injunction at the carty potatoes and squashes. His name has been at the use of all; he has asked no injunction at the carty potatoes and squashes. His name has been at the use of all; he has asked no injunction at the carty potatoes and squashes. His name has been at the use of all; he has asked no injunction at the carty potatoes and squashes. His name has been at the use of the temporate zones? We might say what were they made for? We might so that don't refrigerate. Sunny South, indeed! We go in for the breezy north, and nothing else. This thing of larding the lean earth all day and patent mattrasses all night won't. vegitates: made for? We might as well have refrigorators that don't refrigorate. Sunny South, indeed! We go in for the breezy north, and nothing else. This thing of larding the lean earth
all day and patent mattrasses all night won't
do. We have no objection to the sun; indeed,
we rather aduire him. But we'd rather just
have a butterfuell in a bayer than a head now be a butterfly, all in a bower, than a hard working editor just a persperizing all the Boy, a glass—a pitcher of ice water!"

The following oozes from the brain of the

New York Sunday Times. "Fellow-citizens-as you sprawl on your s his pleasant forenoon, or make an inverted of yourself by propping your chair-back against the wall, you probably think it must be easy twrite what you find it easy to read. Did you ever plough, hoe corn, or plant cabbages? We have been engaged in all these rural exercises and have also swung the scythe and cradle un-der the hot sun of the South; and we selemnly declare that the physical labors aforesaid are mere recreations in comparison with the exhaust-ing toil of writing for the press in a close office with a south-western aspect, when the ther mometer is in the neighborhood of the nineties The vigorous ideas that should find their way The vigorous ideas that should find their way by electric telegraph from the brain to the pen, liquify on the road and ooze out in big globules of perspiration, while the more delicate fancies evaporate by the "insensible" process. Excuse, therefore, the short comings of genius under the sudorific influence of the summer solstice; for be assured that a vertical sun, however it way durify and waters. may dulcify and mature cherries, plums, and other fruital." plumitudes." is by no means fa-vorable to the development of intellectual pro-

The Edgefield Advertiser bears the fol owing testimony to the beneficial effects which have resulted from the prohibition of tavern icenses in that place :-

THE ANTI-LICENSE EXPERIMENT .-nonths ago, the Town Council of Edgefield put stop to the granting of licenses for the sale of a slop to the granting of licenses for the safe of ardent spirits in any quantity under three gal-lons.—Many thought the experiment an idle one and by no means calculated to achieve any real good for our community. We confess our-self to have been among those who doubted its self to have been among those who doubted its efficacy; although we were more than willing to test it. It affords us pleasure to say now after some four months trial of the Ordinance, that it has certainly proved salutary. Whether the actual amount of driuking among our citizens has been diminished in any considerable degree we are not prepared to say. We doubt very much whether it has been. But it is certain that we are now spared the necessity of witnessing many degrading evidences of riot and debauchery, which once made our Village a place to be avoided rather than visited. A dy can now walk our streets, even on a pub-day, without the fear of having her innate modesty shocked by the coarse ribaldry of drunken beasts. A divine can pass and repass on these occasious too without being subjected to the pain of hearing all that he holds sacred or can walk from the Court of Justice to his feel the great and growing evils of intemper quiet lodgings without being annoyed by some ance, and the means which are legally in use buffoon's attempted witticisms. In short, as to all the public nuisances which dram-shop drink ing is so apt to inflict. upon Villiges particularly

INQUIRIES ABOUT SHANGAIR .- A Mohawk farmer writes to an agricultural editor that the which hen fever" rages some up that way, and in-

quires : " Now what do you think of the variety cal-"Now what do you think of the variety called Stank-highs, whose name don't belie them?
I tell my wife they have no body at all, and that when the head is cut off the legs come right apart! Am I right? Neighbor Buckingham's wife says they are the beatenest things to lag on airth, and that they sit and lay both a cost. I don't helieve it, it's contrary to na. ter. I think they on'y recline a little, as it were, and --Jerus-lem! how can them things were, and —Jerus-lem! how can them things set? my jack-knife can set as well as they can.

"I tell you. Mr. Editor. they put things out of joint too, dreadfully. When Buckingham's wife got her Shankhighs home the other day old kink happened to hear the rooster crow the first time, and not knowing anything about the matter, summoned half the hands on the place to com? and help get the old blink-eyed mule out of the crib. Old Kink says, they don't sit on de roost same as odder chickens nohow, but dev sits straddle of de stick. cause why. on de roost same as odder chickens nohow, but dey sits straddle of de stick, cause why, when dey. 'tempts to sit same as odder chick-ens de bead heaby 'nuff for de logs, and dey falls off backwards. Correct philosophy that. They sit when they eat I know, for I've seen

'em do it: and I've seen 'en try to eat standing, but 'was no go, for when they peck at a grain of corn on the ground, they don't mor'n half legs, making them turn a complete somerset May be they're like swinged cats, worse than they look, and that's bad enough anyhow. I'd as soon see a pair of tongs or compasses walking about the yard as these Shankhighs. And I had like to have forgot to tell you, that Pete says they're big liars, 'cause dey crows long time 'fore day in the mornin' when 'taint day; but Kink says Pete don't 'fleet dat deir legs is so long, dey see daylight long time 'fore mon chicken."

PREPARATIONS .- The War Department, th PREPARATIONS.—The War Department, the Washington correspondent of the New York Times says, is sending an extraordinary amount of military supplies out to the Pacific Coast, in anticipation of any contingency which may arise, requiring an unusual expenditure of sulphur, saltpetre, and American lead and iron. It is stated that a vessel, chartered for the purious leadings to New York with endmance. pose, is now loading at New York, with ordnar

REPORT OF THE G. W. P.

To the Members of the Grand Division : REPESENTATIVES AND BROTHERS .-- Another quarter of the year has passed, and we are again assembled to ascertain what has been done and what new plans we may decise for will be resumed on Monday, the 27th of June,

again assembled to ascertain what has been done and what new plans we may devise for carrying on the great work of benevolence and love in which we are engaged.

In reviewing the past and present condition of the temperance reform in South Carolina, we have much to encourage, and also much to discourage us. It is true I believe we are making the state of ing some progress, but it is in a way that at tracts but little attention, and is only percep-tible to ourselves, upon the examination of our quarterly reports. To be largely successful we must attract the attention of the whole com-

munity, and the question with us is, how is that to be beneficially accomplished?

I would respectfully recommend that an effort be made to procure the assembling of a Convention of the friends of Temperanee during the present year, to embrace all classes of temperanee men including, if possible, those temperance men, including, if possible, those who are not acting with us at all, and unpledge ed to total abstinence themselves, but who are sensible to the great evil of intemperance, and the appliances which are legally in use to in-

the appliances which are legally in use to increase and perpetuate it.

We have by resolution taken strong ground against the traffic in ardent spirits. Resolutions on paper accomplish nothing, but active, vigorous effort, on the part of all the friends of temperance in the State, will accomplish much. The people are looking on, expecting us to do something. Many of them are not enrolled with us who, in a warfare against the retail system, are ready to buckle on their armor and do valiant service, but they have no one to lead them, and unless we move and move energetically in the matter, nothing is likely to be done.

I would therefore recommend that a committee be appointed to correspond with other or-

I would therefore recommend that a committee be appointed to correspond with other organizations in the State, and with individuals
of standing and intelligence, patriotism and
christian benevolence, and invite them to act
with us and interest themselves in getting up
public meetings in the different districts and
communities, and that delegates be appointed
—self constituted if necessary—and thus organize a convention that will consider the whole
subject in a spirit of love and patriotism, and
recommend such course as may be deemed most recommend such course as may be deemed most advisable to get rid of the hindering cause to

advisable to get rid of the hindering cause to our success in promoting the moral and social condition of our fellow-men.

Such a proposition must meet the approbation of the christian ministry and of christian men every where. It should meet the approbation of the judiciary and legal profession, of the practioneirs of medicine—if they have entered the profession with proper motives—of the owners of slaves and the lovers of good order and the best interests of the people.

Such an assemblage will carry with it a moral power that will arouse up the people and make the faithful and loyal subjects of King Alcohol tremble for the perpetuity of his reign

Alcohol tremble for the perpetuity of his reign within the (otherwise) free and enlightened State of South Carolina.

Respectfully submitted in L. P. & F.

J. B. McCULLY, G. W. P.

Which was on motion of Bro. Summer, referred to a committee of three, consisting of Bros. Warren, Summer & Pressley.

REPORT OF THE COMMITTEE.

Bro. Warren, from the committee to whom was referred the Quarterly Report of the G. W. ... submitted the following as the report of that Committee:
The Committee to whom was referred the

Report of the G. W. P., beg leave respectfully to Report:

We have had the several matters contained in the excellent report of the Grand Worth; Patriarch under consideration. The first im portant feature therein, claiming the attention this Grand Division, and some expressi of its opinion, is the suggestion relating to an effort being made during the present year to procure the assembling of a Convention to be composed of all the friends of Temperance, embracing not only every order and organiza

ance, and the means which are regarded to increase and perpetuate this evil in our land.

The present position of the friends of Temperance calls for some definite and vigorous triangles are recessary that something should we may say with safety that they have been largely abated in our midst by the Ordinance above alluded to, by which it was refused to license tipling establishments. We trust the enactment may long continue to operate as well as it now does.

INDUSTRIES ANGLES — A Mohawk for who per willing to engage in any enterprise. who are willing to engage in any enterprise which looks to the suppression of intemperance, and the furtherance of the object for which we are united. The present retail system, your committee regarded as not only radically wrong, committee regard but as absolutely the cause of more, if not all, the mischief which is being done in our State. This system is not only directly in the way of the success of our principles, but of the peace and well being of society in general—an unjust

I don't believe it—it's contrary to na-hink they on'y recline a little, as it Your committee deem it unnecessary

this matter—let this important interest in our State be largely represented in our mass Convention. The rights of property should be equally cared for; every planter and slave owner is largely concerned in this matter; and surely no man will remain willingly indifferent to his own interest and happiness. We need only appeal to the experience of slave owner to say whether or not they are willing the men should be allowed to sell any commodity to their slaves which would deteriorate from their value, aml render them even werse than useless. Such is the effect of the traffic in ar dent spirits with slaves; and no appreciating dent spirits with slaves; and no appreciating, right minded slave owner is willing to submit any longer to these outrages. It must be manifest to every mind, not willingly ignorant, that there is absolute necessity for a change in the present liquor laws of this State. Almost any change would be preferable. We cannot be injured more than we have been, or than we shall be, if matters rampin where they are

we shall be, if matters remain where they are.

The question paramount to all others just now is, How is this change to be effected?— Your committee believe, that in accordance with the suggestion of the G. W. P., a committee ought to be appointed by this Grand Division to correspond with other Temperance organizations in the State, and with persons of intelligence, patriotism and christian benevopose, is now loading at New York, with ordnance stores for San Francisco; also, that the Government has recently purchased a fast sailing schooner, to sail from New York, for the same destination, with stores for the Quartermaster's Depot.

Compliment.—As the recent commencement of the University of North Carolina, the degree of Doctor of Divinity was conferred upon the Rev. Cyrus Johnson, of Charlotte; and also pon Bishop Davis, of the Episcopal Church.

which was regarded as an evidence that they are destined to become accomplished performers. Although the house could not contain more than one-half the persons present, all seemed to regret, when nearly at 11 o'clock, it was unnounced that the concert was over.

Grand Division Sons of Temperance of S. C.

In conformity with a request contained in a resolution passed by this body at its repent quired in the prosecution of their efforts. This subject suggests itself to your committee as one of vast importance—which addresses itself to the heart and interest of every man who has another of every man who has committee that the committee have power to draw on the Treasury of the Grand Division for such the Treasury of the Grand Division for such necessary funds as may be incidentally required in the prosecution of their efforts. This subject suggests itself to your committee as one of vast importance—which addresses itself to the heart and interest of every man who has an evidence that they are destined to become accomplished performance of S. C.

In conformity with a request contained in a resolution passed by this body at its repent quired in the prosecution of their efforts. This subject suggests itself to your committee as one of vast importance—which addresses itself to the heart and interest of every man who has a spark of genuine patriotism in his bosom. It is not a work to be confined alone to the Sons or Rechabites, or any other organized body of Temperance people, but a work in which the most enlarged philanthrophy and christian benevolence may engage—empha ly a work of truth, justice and humanity.

Your committee deem it highly important for the success of this work, that the press, a far as possible, be enlisted in the enterprise This we believe can be done, at least so This we believe can be done, at least so far without compromising their neutrality or committing them as advocates of temperance, by copying so much of the report of the G. W. P. as relates to the especial matter of a general meeting of the frends of temperance, and the accompanying report of your committee. This we think the conductors of the press might do, in order that the people may see what we are trying to do for the cause of all mankind. In this appeal to the press of South Carolina. this appeal to the press of South Carolins, we are confident we shall not ask in vain. The high moral tone of the press here assures us that we shall at least be heard.

that we shall at least be heard.

In common with the members of this order, and the friends of the decessed generally, we mingle our sympathies with the bereaved families of our deceased brothers—P. W. P. Samuel Ferguson and the Hon. N. L. Griffin. In the private, unostentatious worth of the one, and the useful, intelligent and private and public times of the others. he virtues of the other, we see much to ac

and emulate.
Your committee beg, in conclusion, to offer

Your committee beg, in conclusion, to offer the following resolutions:

Resolved, That a committee of three be ap-pointed to correspond with the different organi-zations and friends of Temperance in the State, in regard to holding a Mass Convention during the present year, to consider the whole subject of Temperance.

Resolved, That this committee have power to

Resolved, That this committee have put draw upon the Treasury of this Grand Division for such funds as may be necessary to carry into effect the objects contemplated.

Resolved, That publishers of papers in the State be requested to copy so much of the re-State he requested to copy so much of the re-port of the G. W. P. as relates to the matter of a general meeting of the friends of Temperance, and also the report and resolutions o

the committee on the report of the G. W. P.

Resolved, That in the deaths of our esteemed
brothers, P. W. P. Samuel Ferguson, and Hon.

N. L. Griffin, the cause of Temperance has
lost useful and zealous friends, and the public
valuable and worthy citizens. valuable and worthy citizens.

Resolved, That pages in our Record Book be dedicated to their memory.

Resolved, That we tender to the families

the deceased our sincere sympathies and con-dolence, and that the Grand Scribe be request-ed to serve them with a copy of these resolutions.

Respectfully submitted in L. P. and F.

Che Cotton Markets.

COLUMBIA, JUNE 28 The advices from Liverpool, by the Baltic, which were received here this morning, imparted a somewhat better feeling to our market and in the course of the day prices resumed the position they occupied at the close of business on Saturday last. 70 bales were sold, at prices ranging from 74 for very inferior, to 104 ents for fair

Weekly Review of the Columbia Mark For the week ending Monday, June 27.

It will be recollected that our previous week y report of the cotton market closed with a air and steady demand for the article, at prices ranging from 8 to 10 3-4 cents. In reviewng the week just terminated, we find that the faily transactions have only been to a very imited extent; and during the three first days of our commercial week—Tuesday, Wednesday and Thursday—there was no quotable change in the general ruling rates although in some of the transactions prices did turn a point in favor of the buyer. Late on Thursday evening the news from Liverpool by the Ningara, to the 4th instant came to hand, reporting that market dull with a moderate demand, in consequence of the eastern news being still of a warlike character, and some circulars quoting a shade decline in the low and middling qualities of American cotton, while the latter grades remain d unchanged. Sales for the week ending on the 4th instant, 40,000 bales, speculators taking 11,-000 and exporters 3000 bales, and leaving a stock on hand of \$16,000 bales. These accounts failed to produce any effect on the operations of Friday, and the market being very sparingly supplied, as planters evince great unwillingness to sell, prices throughout the day remained unchanged. On Saturday and Monday day, however, the market was dull and inactive, and prices mey now be said to rule 1-8 to i cent lower than they did at the date of our last report. The sales of the week comprise some 400 bales and the quotations found below, while they must be considered somewhat nominal for the present, still we feel confident that they are as near the present value of the article as it is possible to have them, viz; Interior 8 to 84;

Why will people endure pimples on the 'human face divine,' or eruptions of any kind, when it is a fact so well known; that Dr. Guyedt's Yellow Dock and Sarsaparilla cleanses the skiu from all impurity, removing Pimples, Soros, and Blotches, leaving the affected parts as healthy, smooth and soft as the flesh of a babe. It really priceless to all that wish the rosy beauty f childhood. It causes all sores and poisonous wounds to

It causes all sores and poisonous wounds to discharge all infeated matter, and eradicates every impurity from the system.

It does its work mildly but effectually, giving conscious beauty and blooming health in the place of ugliness and soul sickening disease.

See advertisement. 23-1m

THE STOMACH prepares the elements of the bile and the blood; and if it does the work feebly and imperfectly, liver disease is the cer-tain result. As soon, therefore, as any affect on of the liver is perceived, we may be sure that the degestive organs are out of order. The first thing to be done, is to administer a speci-fic which will act directly upon the stomach— the mainspring of the animal machinery. For this purpose we can recommend Hootland's German Bitters prepared by Dr. C. M. Jackson, Philadelpha. Acting as an alterative and a tonic it strengthens the digestion, changes the condition of the blood and thereby gives regularity to the bowels.

DIED On the 22d instant, of Infla Bowels, SAMUEL PRESELEY McCaw, son of Elisaboth and Samuel McCaw, of Rocky Creek aged pear 6 years.

TEMPERANCE MEETING.

THE New Hope Temperance Society will hold a meeting at New Hope, on Saturday the 9th of July; to which the Sandy River and Chester Divisions, Sons of Temperance, friends of temperance, and public generally are invited. The Sandy River and Broad River Bands of Music are also invited. E. T. ATKINSON, Sere

Land for Sale.

THE subscriber offers for sale his plantation lying five and a half or any miles South East of Chesterville, and about one mile from the Railroad. The plantation contains 338 acres, and has thereou a good Two Story Dwelling House, Kitchen and other necessary out buildings; also, a good Gin House, Gin, Threaher and Fan, Blacksmith Shop, and good water. buildings; also, a good Gin House, Gin, Thrash-or and Fan, Blacksmith Shop, and good water. There are about 150 screes of woodland on it. Any person wishing to purchase will do well to come and examine for thamselves. If not sold before the first Monday in August, the land will be offered at public outery at the Coura House door.

exists at the manner, of their exists, and the manner, of these with which they are in the emificiency of coap-suds ratioble compost may be made. OF FARMING in to do too much, is a common error and forest his plans on a large locity as to readily rid themselves of the noxious gases given off the surface of their bodies, and to go beyond any deleterious influence from the fumes of their excretia.

We should therefore, in poultry houses, to a reel farmer. He fancies the these of that profession, as is too often common estimate, to be in proportion to the ter of nerse, not to say cultivated, arbraced within the boundaries of his The fact is now being spread ad that's large farm does not make in either rich, contented or happy, but on ntrary, the reverse of all these, unless fied, when his labor is rewarded by rell filled, when his labor is rewarded by male cross and fair success in the various configurate in which he is engaged. No concern realize the full benefits of his sufficient without adopting a thorough system of builture. His success, commensurate only wishes, always depends upon the manter is which he prepares his grounds, plants its seed, and reals his stock. Neither of here departments, which may be considered the cardinal ones of his profession, will take associatementes. The soil may be rich ut it needs culture. Hisseed may be sown, it abould be in due time, and always on the production of the crop desired. His at be constantly cared for it derires its thrift from the soil, and sends again to that soil the sustenance it requires; but this is not done in a loose or hap-hazard way. The armer's care is required, and all tter judgment must be exercised in beging up this system of reciprocal bene-nts this may be realized by every intelligent and industrious farmer.

deh cultivation and systematic attion to all parts of his business is indis-ciple to a good degree of success. The y corner stone to this whole system of manage, is to do what you do thoroughly nature will not be cheated, and never gives full returns to the balf-way work that is praciced by vastly too many calling themselv-acter? If a man kicks me cause read particles of the land has been worn, the for my licker, ain't I getting understanding? extent of that exhaustion and the food re-quired, must be first considered. When as-the world owes me a living. When is it must be given, to bring out full returns. If ing."-Washington Star. mer has but a small stock, and consequently but a small amount of manure to "I'm sitting on the style, Mary," as the second that but a fellow said when he sat down on a bonnet small farm can beater | sed with it; and good! of the latest fashion.

farm, artificial fertilizers ed if good crops are obtained. And so with labor; two men cannot suitably till one hundred acres of land, when the labor of two men and perhaps four, might be profitably employed on seventy-five acres.

"Mon attreet?"

"Well be profitably employed on seventy-five acres.

This is the great error in farming. Two men strive to do what four can hardly do, and thus thousands of acres are run over half tilled, and producing half crops. The land is run over till worn out, sustaining year after year the unnatural tax, till its energies are entirely exhausted and it fails to yield even a feeble crop, because its life is worn out. Much of the soil in Virginia and other Southern States is a type of this, several times, often, vill you tell me ze name other Southern States is a type of this.

Thousands of neres are lying entirely useless and exhauted, and will ever remain so,
till the first ments of its power are returned to it. This process is fast going on in
many of the Western States. The soil is
treated like an inexhaustible min; the til-

this subject, is beginning to correct this practice to some extent, but in most instances very little is returned to the soil to keen it alive, till after several years of con-tinual cropping, it manifests signs of ex-haustion, and ultimate barrenness. When tillers of the soil understand their true interests, they will cultivate no more land than they can do well. Fifty acres of land for tillage, brought to a high state of cultivation pays better than one hundred run over in the way that many do, -Jefferson Farmer.

POULTRY MANURE.

This is the most valuable of the farm me nurse and is entitled to great care in its col-lection and use. Beyond the amount of water it contains, it is as valuable as guano, and therefore should never be sold by practical farmers to morocco dressers, at 25 cts. per bushel. The poultry house should be underlaid with charcoal dust, when it can be procured, so as to receive the hen manure as fast as made. The surface of this charcoal dust should occasionally be raked or moved off to one corner, with a portion of the dung. This may be continued until the manure is required for use, when it should be well mixed with ten times its bulk of soil before applied to crops. Where charcoal dust cannot be procured, well decomposed swamp muck, plaster of Paris or even aluminous clay, may be frequently dusted over the floor of the poultry house to be mixed with this manure. The object of all this is to receive and retain the ammonis, so as to prevent its liberation from injuring the health of the inmates of the poultry house All animals, man included, suffer from breathing the effluvia arising from their excretia. and this is particularly true of the feathered tribes. There natural habits in the wild

strate of the atmosphere, and with such vemake such arrangements as will prevent the poultry from inhaling these deleterious gasts .- Working Farmer.

Bumarous Reading.

A LOAFER'S SOLITOQUY .- " I wish I knew where to get a cent, I do. Blast if don't emigrate to Kamschatks, to dig gold. Money's scarcer nor wit ; can't live by neitherat least I can't. Sold the last old shirt paymed my boots for three cents, and went home rich as a lord. Told my landlady I had a hundred thousand dollars and wanted the best room in the house. Insulted me by saying the attic was too good for me.

"I'm an injured individual. Society per secutes me. I don't do society no harm, as I knows on. I don't rob widder's houses. I don't know no widders. I don't put the bottle to my neighbor's lips. I ain't got no neighbors; and fact is I don't own no bottles. Couldn't fill 'em if I did.

"I'm an innocent man. Nobody car look me in the face and say I ever hurt 'em -nobody. And yet I heven't got a roof to lay my head into. My old landlady rated me; why? I couldn't pay, and I left 'Cause why ! ain't it better to dwell in the corner of a house-top than with a brawling woman in a wide house ! But I ain't got a house-top; and if I had, a corner would'nt be safe, would it?

"I'm a desp'rit man. I'd go to work if it wasn't for my excessive benevolence. I'm afeard of taking the bread out of somebody's mouth. Besides, wisdom's the principal thing ; don't the good book say so ? What's money to wisdom? Ain't I studying character! If a man kicks me 'cause I can't pay d, full measure of these requirements going to pay, I wonder! I'm tired of wait-

"In Vandam street !" "Eh bien! You lif in von dam street and you is one dam fool—by dam?"

THE OX THAT WOULDN'T STAY KILLED The Detroit Advertiser tells the following good one of a farmer in that vicinity who drove a very fat ox to market, expecting that the animal when killed would yield some twelve or thirteen hundred of beef. He sold the ox : the butcher drove him off, and at night came back representing that the ox had been slaughtered, and offered to settle for

it, but showing an account of its weight which fell short of the expectations of the farmer, who insisted on seeing the beef, and after examining and weighing which, with the tallow, he was forced to go home, though not more than half satisfied, with the money in his pocket. During the night after his return, the dead ox came back to his yard ali ve and well, having broken out of the butch er's enclosure; and the next day the farmer drove the same ox back to town and offered to sell him to the butcher, who, having missed the animal, eyed the new comer rathe suspiciously, and concluding that he it was who had been sold, bought the ox at a lump-ing price and paid for him this time.

"Why, mother thent me out to hunt ou old threekled hen, and if you thee her, I wish you'd eateh her for me; coth I'm tired a looking for her."

A Choice of Evils .- Two young officers were travelling in the far West, when they stopped to take supper at a small road-side tavern, kept by a very rough Yankee woman. The landlady, in a calico sun-bonnet and bare feet, stood at the head of the table to pour out. She inquired of her short sweetening in their coffee." The first officer, supposing that "long sweetening" neant a large portion of that article, chose taccordingly. What was his dismay when he saw their hostess dip her finger deep down into an earthen jar of honey that stood near her, and then stir it (the finger) round in the coffee. His companion seeing this, preferred "short sweetening.,' Upon which he woman picked up a large lump of maple sugar that lay in a brown paper on the floor beside her, and biting off a piece, put it in-to his cup. Both the gentlemen dispensed with coffee that evening.

POETIC. - One of the boys indites the folowing to his lady love : And when the reverened sire shall say,

" My son, take thou this daughter ?" d answer him in fearless tone.

"I shan't do nothing shorter!" Will you, my son, support and nourish, This flower I give to thee !" d give my span white kids a flourish, And answer, "Yes, sir-ee!"

WE overtook a poor weather-bound indiidual the other day, who was caught in the ain, humming to himself in a doorway :

'Twas ever thus from childhood's hour, That chilling fate has on me fell, There always comes a soaking shower, When I haint got no umberell!

Thou sweet musician, that round my bed. Doth nightly come, and wind thy little horn; By what unseen and secret influence led, Feed'st thou my ear with music till the morn? [Edward Sanfords

It is a pesky mosquito, after your blood and your rest, Edward! Don't mind his little horn, or he'll have it into you. Z-z-e-e-e e-e-e! Get out with his music his instrument is too sharp for your ear .- Bosto

" Ma," said little Katy, " I don't think Solomon was as rich as they say he was." "Why, my dear?" said the astonished

"Because he slept wit his fathers, and I think if he had been so very rich he would have had a bed of his own."

At a concert, recently, at the conclusion of the song, 'There is a good time coming, a country farmer got up and exclaimed 'Mister, you couldn't fix the date, could you?

T. J. DUNOVANT & CO., MESSES. EDITORS :- Having recently had ocasion to lodge in your town, our lot has been cast with our friend of the Planters' and Mechanics' Hotel, and we cannot omit expressing publicly our gratification at the manner in which they are now receiving. The Ladies are particularly invited to call and examine their assortment of which his house is managed, and the effort he used to promote the comfort of those who call on him. We have always found his table boun-LADIES DRESS GOODS. tifully supplied with the best fare to be found n the market, and prepared in such a manner CONSISTING OF as would delight the palate of the most fastidious. Lands for Sale.

HAVE a tract of Land containing about SEVENTEEN HUNDRED ACRES, which SEVENTEEN HUNDRED ACRES, which I wish to sell. It is situated in York District, on both sides of the Saluda Road, and near to the Charlotte Rail Road; one portion of it being within one-half mile of Rock Hill Depot. It is mostly animproved—not more thin eighty acres being cleared; and is well adapted to the cultivation of grain. From its location and other advantages, it is believed to be a desirable place. The land will be sold in purcels to suit purchasers and on accommodating terms.

W. P. THOMASSON.

April 6

NOTICE.

THE Subscriber has taken the Store lately eccupied by David Pinchback, and is now offering his goods for sale; for Cash, or to approved customers on time. It would be vain in him to say like some, that his Goods will be sold lower than hisneighbors, and it would be troublesome to enumerate all he has for sale; but he would say this without doing injustice to any one, that his experience is as great as any merchant in the place is the selection of Goods, both as to style and durability,—and he stands pledged to trade fairly with all who may feel disposed to try him, and topes he will be able to please all. able to please all.

The Best Female Medicine Known;
The Dest Female Medicine Known;

The Best Female Medicine Known.

The peculiar maladies to which females are subject, commonly produce great bodily exhaustion, accompanied by a depressed and often gloomy state of mind. As the system declines in strength, there is a loss of mervous power, and this very naturally impairs the energy of the mind and disturbs the equanimity of the temper. Every candid woman who has suffered from female complaints will admit this to be the mourant truth. Now, to obtain relief, it is only necessary to stop the tendency to depletion and debility. This is done by renewing that fountain of health and strength; the BLOOD, and no medicine secomplishes this desiry able result so speedily and complete as "Dr. Gaysott" improved Extiact of Yellow Dock and Sassparilla.

Ladies of pale complexion and consumptive habits, and such as are debilitisted by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and to vigor.

Scrofula and Cancer cured by Dr. Guysot's Ex-tract of Yellow Dock and Sarsaparilla.

RUTLEBGE, Granger County, Tenn., April 27, 1852. April 27, 1852. §
J. D. Park, Esq., Cincinnait, O.—Dear Sir:—13
gives me great ratis action to add my testimony in favor of "Dr. Guysott's Extract of Yellow Deck and
Sarsaparilla," to that of the numerous and highly respectable persons who have been benefited by the

Sarsaparila, to that of the numerous and highly respectable persons who have been benefied by the medicine.

My wife has been suffering for the space of nearly five years with Scrotula and Cancer, which, I think, found its origin in the derangements of the system peculiar to her sex, while in the mean time she was under the care of the most eminent Physicians in this section of country, without deriving any material aid from their prescriptions.

Upon the recommendation of Dr. Cookes, one of our Physicians, who had seen the medicine used with happy offect. I obtained of your Agents here, "Messrs. Kice & McFarland," one bottletof "Dr. Guysotti's Extract of Yellow Pock and Sarsaparila," and as may wife found relief from that bottle, I bought some six bottles, which she has taken with the most astonishing benefit, for I am pleased to say it has entirely cared her, for she has entirely recovered from her illness, and the Sorofula and Cancer are cared sound and well.

Accept my gratitude.

Respectfully.

MICHAEL GOLDMAN.

Extract of a Letter from an extensive Merchant in Plainfield, Livingston county, Michigan.

PLANFIELD, Mich., April 8, 1352.

Mr. John D. Perk—Dear Sir:—Dr. Guysott's Yellow Dock and Sarsaparilla is performing some astonishing sures in this place. A Mr. S. B. Strickland has just informed me that one of his children has been entirely cured for year expressions of Screening hy the me. sating sures in this place. A Mr. S. B. Strickland has just informed me that one of his children has been entirely cured of a very severe case of Scrofula by the use of only one bottle. He had tried almost every thing that the Doctora had prescribed, but all of no axail, as the child continued getting worse. The sores are now all healed up and the child apparently well, which is justly ascribed to the use of the Yellow Dock and Sarsaparilla.

SIGNED, Yours, truly, R. A. BEAL,

Females, Read the Following.

NEWARK, N. J. Jan. 25.

Mr. Bennett: We take pleasure in stating that
our Yellow Dock Sarsaparilla gives great satisfaction
agery case. your Yellow Dock Sarsaparilla gives great satisfaction in every case.

A very respectable gentleman informed me that his daughter was troubled with difficult measuration and other diseases peculiar to her sex. She hadront had her regular menetrual discharge for a long time; but by the use of Dr. Guysott's Yellow Dock and Sarsaparilla, was radically cured. She used Townsend's and others without receiving the slightest benefit. He had one daughter to die from the same cause.

most miracuolus cure of Bad Legs, after 43 years' suffering.

Extract of a letter from Mr. William Galpin, of 70 St. Mary's street, Weymouth, dated May 15th, 1851. To Professor HOLLOWAY.

To Professor Holloway.

Sin: As the age of 18 my wife (who is now 61) caught a violent cold, which settled in her legs, and over since that time they have been more or less sow, and greatly inflamed. Her agonies were distracting, and for months together she was deprived entirely of rest and eleep. Every remedy that medical men advised was tried, but without effect; her health suffered severely, and the state of her legs was terrible. I had often rend your advortisements, and advised her to try your Pillsand Offinens, and as last recourse, after every other remedy had proved assless, the consented to do so. She commenced six weeks ago, and strange to relate, is now in good health. Her legs are painless, without seam or sear, and her sleep sound and undisturbed. Could you have witnessed the sufferings of my wife during the last 48 years, and contrast them with her present enjoyment of health, you would indeed feel delighted in having been the means of so greatly alleviating the sufferings of a fellow creature.

Signed,

WILLIAM GALPIN.
